Company Profile

The Company:

Seven Hills Realty Trust, or SEVN, we, our or us, is a real estate investment trust, or REIT, that focuses on originating and investing in floating rate first mortgage loans secured by middle market and transitional commercial real estate, or CRE. We define middle market CRE as commercial properties that have values up to $100.0 million and transitional CRE as commercial properties subject to redevelopment or repositioning activities that are expected to increase the value of the properties.

Management:

Our manager, Tremont Realty Capital LLC, or Tremont, is registered with the Securities and Exchange Commission, or SEC, as an investment adviser. Tremont is owned by The RMR Group (Nasdaq: RMR). RMR is an alternative asset management company that is focused on CRE and related businesses. RMR primarily provides management services to publicly traded real estate companies, privately held real estate funds and real estate related operating businesses. As of December 31, 2022, RMR had over $37 billion of real estate assets under management and the combined RMR managed companies had more than $16 billion of annual revenues, nearly 2,100 properties and over 38,000 employees. We believe Tremont's relationship with RMR provides us with a depth of market knowledge that may allow us to identify high quality investment opportunities and to evaluate them more thoroughly than many of our competitors, including other commercial mortgage REITs. We also believe RMR's broad platform provides us with access to RMR's extensive network of real estate owners, operators, intermediaries, sponsors, financial institutions and other real estate related professionals and businesses with which RMR has historical relationships. We also believe that Tremont provides us with significant experience and expertise in investing in middle market and transitional CRE.

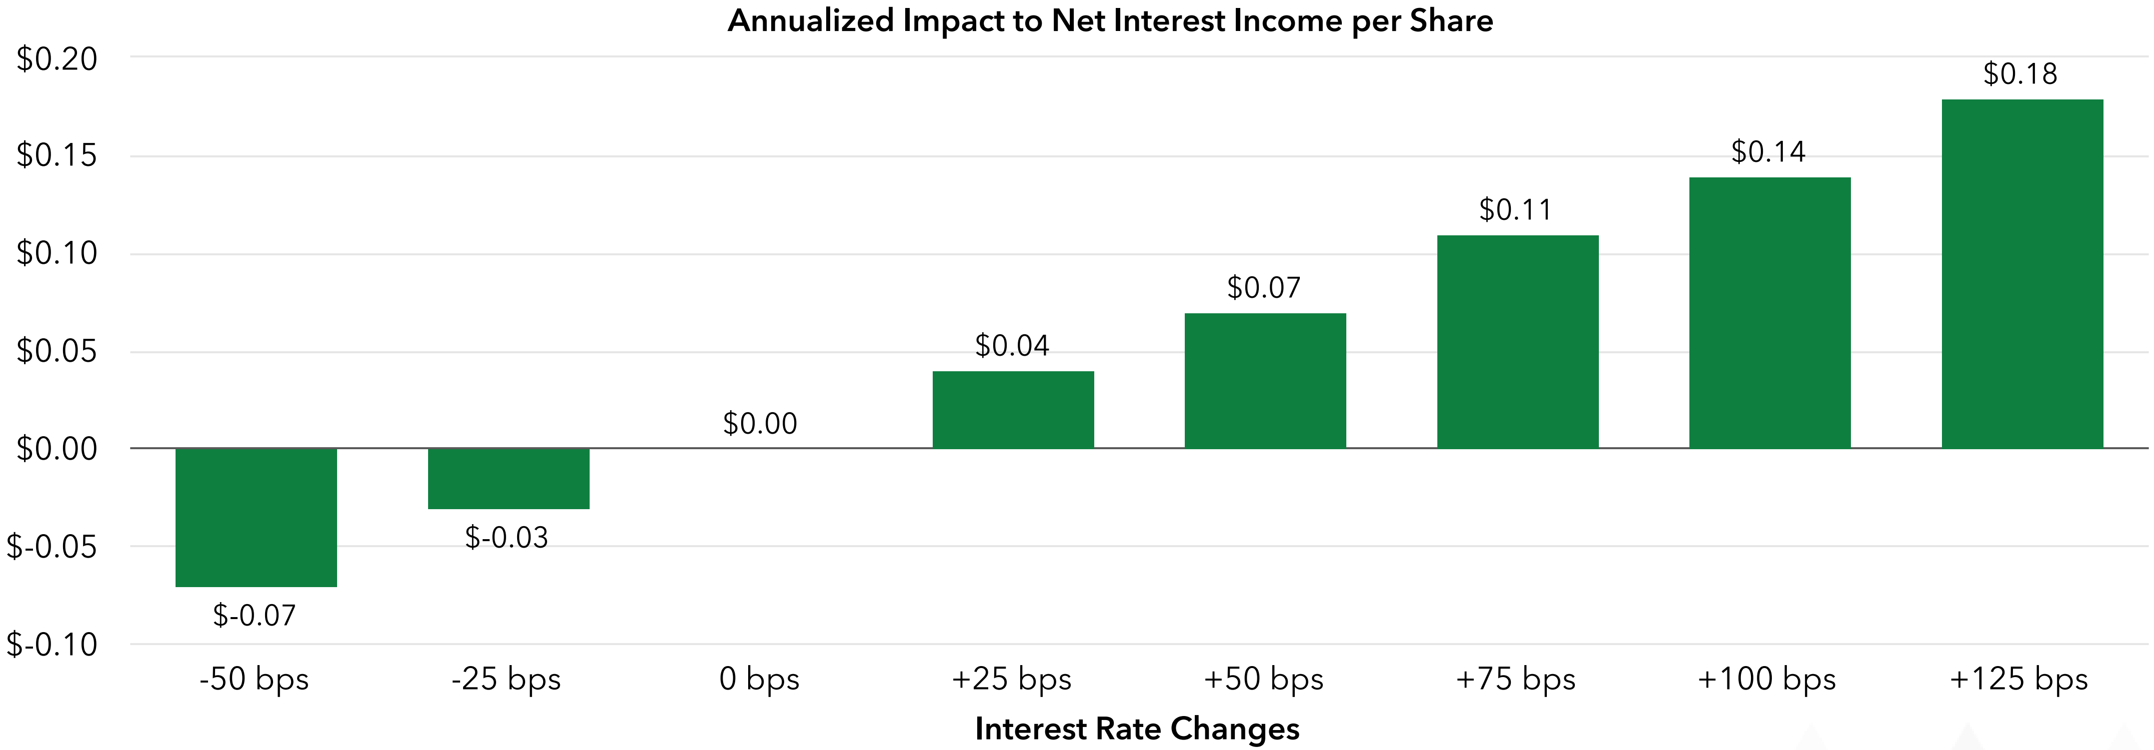
Shareholders' equity	$ 271,579
Total outstanding common shares	14,709
Book value per common share	18.46
Unaccreted purchase discount per common share	0.46
Adjusted Book Value per common share [(2)]	$ 18.92

(1) The weighted average remaining maturity of our Master Repurchase Facilities is determined using the earlier of the underlying loan maturity date and the respective repurchase agreement maturity date. The weighted average remaining maturity of Asset Specific Financing is determined using the underlying loan investment maturity date.

(2) Adjusted Book Value per common share excludes the impact of the unaccreted purchase discount resulting from the excess fair value over the purchase price of the loans held for investment acquired in the Merger. The purchase discount of $36.4 million was allocated to each acquired loan held for investment and is accreted into income over the remaining term of the respective loan held for investment. As of December 31, 2022, the unaccreted purchase discount was $6.7 million.

Interest Rate Sensitivity

(As of December 31, 2022)



- Weighted average interest rate floor of total portfolio of 0.62%.
- None of our loans have active interest rate floors.
- No interest rate floors on advances under our Secured Financing Facilities.

The above table illustrates the incremental impact on our annual income from investments, net, from hypothetical immediate changes in LIBOR and SOFR, taking into consideration our borrowers' interest rate floors as of December 31, 2022. The results in the table above are based on our loan portfolio and debt outstanding as of December 31, 2022. Any changes to the mix of our investments or debt outstanding could impact the interest rate sensitivity analysis. This illustration is not meant to forecast future results.

Purchase Discount Details

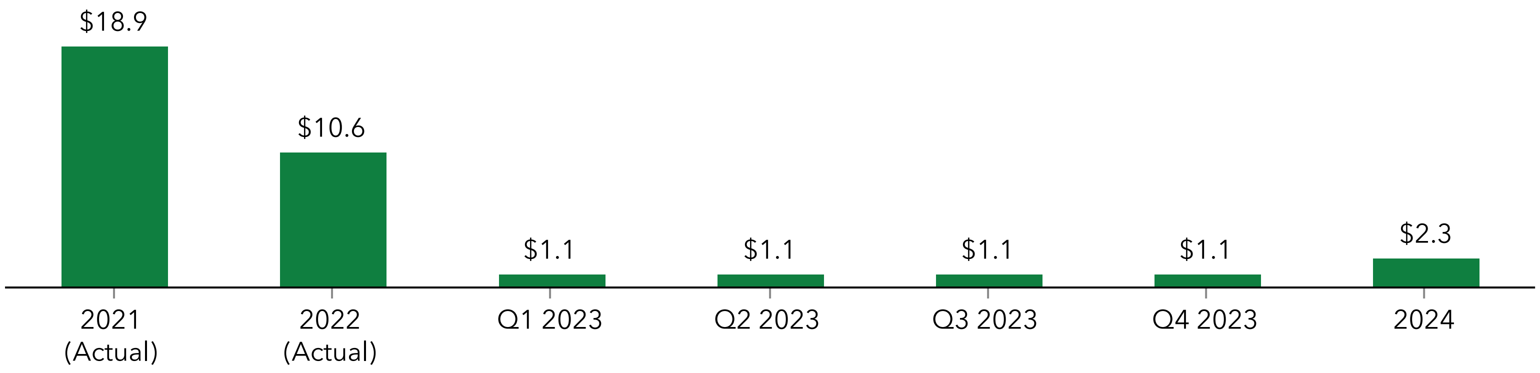
(dollars in millions)

The fair value of the loans acquired in the Merger exceeded the purchase price of the loans. In accordance with U.S. generally accepted accounting principles, or GAAP, a purchase discount was recorded for the difference between the then fair value and purchase price of the loans acquired. The purchase discount is accreted into income over the remaining terms of the acquired loans.

Purchase Discount

Fair value of TRMT loans acquired in the Merger	$	205.6
Less: Purchase price of TRMT loans acquired in the Merger		169.2
Purchase discount as of September 30, 2021		36.4
Less: Accumulated accretion of purchase discount as of December 31, 2022		(29.7)
Remaining purchase discount to be accreted as of December 31, 2022	$	6.7

Estimate of Purchase Discount Accretion [1]



(1) The estimate of purchase discount accretion is based on information as of December 31, 2022 and is subject to change as a result of early repayments or modifications of loans accounted for as extinguishments.

(1) Exit fees collected for loans acquired in the Merger represent fees collected upon repayment of loans for which no income relating to those exit fees has previously been recognized in Distributable Earnings. In accordance with GAAP, exit fees payable with respect to loans acquired in the Merger were accreted as a component of the purchase discount and were excluded from Distributable Earnings as a non-cash item. Accordingly, these exit fees have been recognized in Distributable Earnings upon collection.

(2) Other transaction related costs include expenses related to the Merger.

(3) Income tax expense for the three months and year ended December 31, 2021 represents the portion of income tax expense incurred on realized gains on the disposition of our securities portfolio in connection with SEVN's conversion from a registered investment company to a mortgage REIT in January 2021.

Non-GAAP Financial Measures

We present Distributable Earnings, Distributable Earnings per common share, Adjusted Distributable Earnings, Adjusted Distributable Earnings per common share and Adjusted Book Value per common share, which are considered "non-GAAP financial measures" within the meaning of the applicable SEC rules. These non-GAAP financial measures do not represent net income, net income per common share or cash generated from operating activities and should not be considered as alternatives to net income or net income per common share determined in accordance with GAAP or as an indication of our cash flows from operations determined in accordance with GAAP, a measure of our liquidity or operating performance or an indication of funds available for our cash needs. In addition, our methodologies for calculating these non-GAAP financial measures may differ from the methodologies employed by other companies to calculate the same or similar supplemental performance measures; therefore, our reported Distributable Earnings, Distributable Earnings per common share, Adjusted Distributable Earnings, and Adjusted Distributable Earnings per common share may not be comparable to distributable earnings, distributable earnings per common share, adjusted distributable earnings and adjusted distributable earnings per common share, as reported by other companies.

We believe that Adjusted Book Value per common share is a meaningful measure of our capital adequacy because it excludes the unaccreted purchase discount resulting from the excess of the fair value of the loans TRMT then held for investment and that we acquired as a result of the Merger over the consideration we paid in the Merger. Adjusted Book Value per common share does not represent book value per common share or alternative measures determined in accordance with GAAP. Our methodology for calculating Adjusted Book Value per common share may differ from the methodologies employed by other companies to calculate the same or similar supplemental capital adequacy measures; therefore, our Adjusted Book Value per common share may not be comparable to the adjusted book value per common share reported by other companies.

In order to maintain our qualification for taxation as a REIT, we are generally required to distribute substantially all of our taxable income, subject to certain adjustments, to our shareholders. We believe that one of the factors that investors consider important in deciding whether to buy or sell securities of a REIT is its distribution rate. Over time, Distributable Earnings, Distributable Earnings per common share, Adjusted Distributable Earnings and Adjusted Distributable Earnings per common share may be useful indicators of distributions to our shareholders and are measures that are considered by our Board of Trustees when determining the amount of distributions. We believe that Distributable Earnings, Distributable Earnings per common share, Adjusted Distributable Earnings and Adjusted Distributable Earnings per common share provide meaningful information to consider in addition to net income, net income per common share and cash flows from operating activities determined in accordance with GAAP. These measures help us to evaluate our performance excluding the effects of certain transactions, the variability of any management incentive fees that may be paid or payable and GAAP adjustments that we believe are not necessarily indicative of our current loan portfolio and operations. In addition, Distributable Earnings is used in determining the amount of base management and management incentive fees payable by us to Tremont under our management agreement.

Distributable Earnings:

We calculate Distributable Earnings and Distributable Earnings per common share as net income and net income per common share, respectively, computed in accordance with GAAP, including realized losses not otherwise included in net income determined in accordance with GAAP, and excluding: (a) the management incentive fees earned by our Manager, if any; (b) depreciation and amortization, if any; (c) non-cash equity compensation expense; (d) unrealized gains, losses and other similar non-cash items that are included in net income for the period of the calculation (regardless of whether such items are included in or deducted from net income or in other comprehensive income under GAAP), if any; and (e) one-time events pursuant to changes in GAAP and certain non-cash items, if any. Distributable Earnings are reduced for realized losses on loan investments when amounts are deemed uncollectable.

Adjusted Distributable Earnings:

We define Adjusted Distributable Earnings and Adjusted Distributable Earnings per common share as Distributable Earnings and Distributable Earnings per common share, respectively, excluding the effects of certain non-recurring transactions.

Adjusted Book Value:

Adjusted Book Value per common share is a non-GAAP measure that excludes the impact of the unaccreted purchase discount resulting from the excess of the fair value of the loans TRMT then held for investment which we acquired as a result of the Merger over the consideration we paid.

Other Measures and Definitions

All In Yield:

All In Yield represents the yield on a loan, including amortization of deferred fees over the initial term of the loan and excluding any purchase discount accretion.

Asset Specific Financing:

Amounts advanced under the facility loan agreement and security agreement with BMO Harris Bank N.A. are pursuant to separate facility loan agreements that we refer to as Asset Specific Financing.

LIBOR:

LIBOR refers to the London Interbank Offered Rate.

LTV:

Loan to value ratio, or LTV, represents the initial loan amount divided by the underwritten in-place value of the underlying collateral at closing.

Master Repurchase Facilities:

Collectively, we refer to the master repurchase facilities with UBS AG, Citibank, N.A. and Wells Fargo, National Association as our Master Repurchase Facilities.

Maximum Maturity:

Maximum Maturity assumes all borrower loan extension options have been exercised, which options are subject to the borrower meeting certain conditions.

Warning Concerning Forward-Looking Statements

This supplemental operating and financial data may contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and other securities laws. Also, whenever we use words such as “believe”, “expect”, “anticipate”, “intend”, “plan”, “estimate”, “will”, “may” and negatives or derivatives of these or similar expressions, we are making forward-looking statements. These forward-looking statements are based upon our present intent, beliefs or expectations, but forward-looking statements are not guaranteed to occur and may not occur. Actual results may differ materially from those contained in or implied by our forward-looking statements. Forward-looking statements involve known and unknown risks, uncertainties and other factors, some of which are beyond our control.

The information contained in our filings with the SEC, including under “Risk Factors” in our periodic reports, or incorporated therein, identifies important factors that could cause our actual results to differ materially from those stated in or implied by our forward-looking statements. Our filings with the SEC are available on the SEC's website at www.sec.gov. You should not place undue reliance upon forward-looking statements. Except as required by law, we do not intend to update or change any forward-looking statements as a result of new information, future events or otherwise.
